AUSTRALIA

## Carton Handling Solutions

Fromm offer a range of carton handling solutions to Australian industry. The rise of the internet shopping has seen an explosion in parcel and boxed products being transported by courier or Australia Post. To ensure the product inside the carton gets to its intended destination in pristine condition we have a range of different packaging solutions.

Some machines can stand alone with a small gravity conveyor and seal the top and bottom of the box simultaneously, others can be placed inside production environments and have a host of beneficial extras.

## Semi Automatic Taping Machines

Fromm Packaging offers a complete range of carton taping machines for Australian business. From the entry point of a simple taping machine such as the FCS-10U to the more sophisticated FCS50SDF which is designed to work inside a production environment with minimal interaction. Taping the bottom and top of a box in under two seconds, the Fromm range are easy to integrate into your business and with a model for most applications.

High speed machines with options such as flap closers, stoppers to allow for orderly processing and gravity conveyors to turn your taping needs into a simple operation. Complete with Fromm standard 2 year warranty, the carton taping machines are excellent value for money.
