

PET Strapping Head

FROMM MH600 PET Strapping Head

- ✓ Compact & Modular Design
- ✓ High Strap Tension - 7000N
- ✓ Wide Strap Range
- ✓ Strap Guide Feature
- ✓ Highly Consistent Sealing Efficiency
- ✓ Dust Cleaning System
- ✓ 3-Side Suspension Point For Easy Integration

The MH600 has been designed for automatic heavy duty industrial PET strapping installations. The head processes strapping from 13-19mm of various thicknesses & qualities.

The high strap tension (7000N) allows applications of PET strapping with break strengths of up to 15000N!

Strap Dimensions	Strap Tension	Seal Type / Efficiency
Width - 13-19mm Thickness - 0.60-1.35mm	7000 Newtons (adjustable)	Friction Weld 85% Efficiency

Options

- Thinner, rubber coated base plate
- Dust cleaning system
- Strap counter

Pack Width	Feed/Retract Speed	Tension Speed	Power Supply	Consumption	Control Voltage	Weight
Min. 120mm	5.3 Metre/sec	105mm/sec	400V-3PE-50Hz	1.1KW	24V DC	104kg
