

Sweed 450 DDX Plastic and Steel Strap Chopper

The Sweed 450 DDX Plastic and Steel strap Chopper boasts power alongside a dual driven feedworks. Driving both feed rolls on the chopper allows the unit to process strap quickly and efficiently.

Plastic and steel strap off-cuts are notoriously hard to discard, with annoying pieces of strap filling bins and requiring constant clean-up. With the Sweed 450DDX, simply feed your unwanted strap into the machine and it will chop it up and discard the pieces into the bin.

The Sweed 450DDX is designed for high volumes of steel or PET strap, with or without seals. The 450DDX will make short work of your heavy duty strapping.

Polyester (PET) Strap

FROMM stock an extensive range of Star Strap-Plus Plastic strap. Talk to our friendly staff today!

FROMM
ADVANTAGE

★ Features

- Rotating knife strap chopper
- Easy to reach "Feedworks Release" hand lever
- Infeed funnel with material guide
- Cuts used strapping into 76mm pieces for recycling
- Easy to operate
- Multiple pieces at the same time
- Plug and play technology
