

## Pallet Topsheets

Topsheet are a great extra item, used to protect goods in transit. If pallets are to be wrapped for transport or storage, the addition of a topsheet represents either a dust proof or water proof solution for the top of the pallet. FROMM topsheets are readily available on a roll, made to suit the Australian market.

### Specifications

Product Code: 3800.00 - clear

3830.09 - black

Dimensions: 1680 x 1680

Roll Quantity: 200 sheets/roll

### ★ Features
